Morning all,

Hope you're having a good Friday.

Just wanted to extend my gratitude for all the hard work on the ongoing development for More Trees, as well as the huge task that was data migration.

A particular shout-out to [@Tom Gill](#) for tackling the mighty task of migrating plantation history – this not only comforts the Karen's that were complaining, but means that we have much better data integrity going forward.

Another shout out to [@Jonathan King](#), the free credit assignment is working beautifully – this also helps me to keeps the Karen's happy.

It's been a mammoth task in launching the new platform and whilst we've had a few road bumps on the way, I'm so proud of what we've built and very grateful for this team - I couldn't have done it without you.

Have a lovely weekend!

(p.s., I plan to beat you all at go karting on the next team social)
